Activities

1. A website to share information: www.bibliopat.fr

The BiblioPat website provides a lot of professional information: technical help sheets, toolkits related to the management of special collections, ... Developed in Drupal, it allows for collaborative work on publications.

2. A discussion list for answers to professional questions

The discussion list aims to foster debate on any question and interrogation regarding special collections. This list is moderated. The association will publish any message related to its domain, provided it respects current laws and regulations.

The discussion list archives are hosted by the Enssib LIS school. The most popular topics debated are summarized and published on the website as technical help sheets.

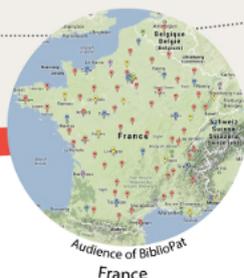

2013 seminar topic: "Personal practices, professional memory: from mastering to transmitting"

3. Seminars for training and meeting

BiblioPat organizes an annual seminar about a theme chosen by the association members. Situations, experiences, case studies, professional tools are shared during the meeting and published afterwards on the website.
